

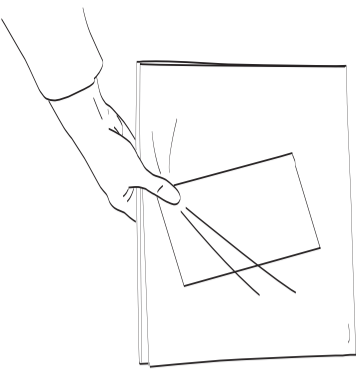

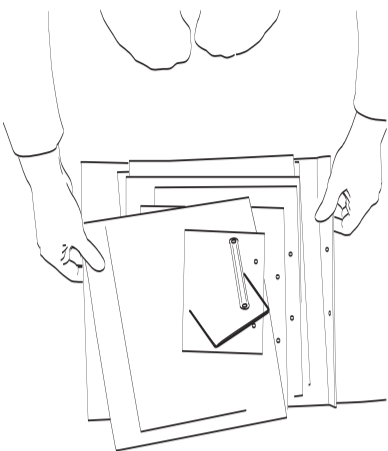

*fig. 1* please remove the plastic wrapping and carefully take out all the items.

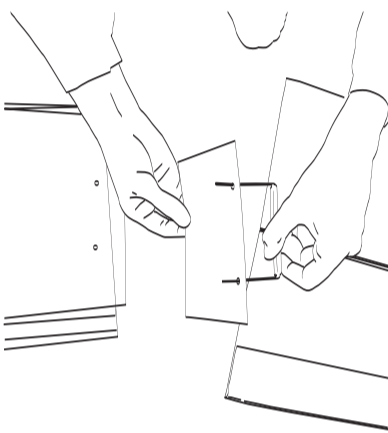

*fig. 2* look at the items and make sure that you have everything listed in the index. After making yourself familiar with the content, place the items in the suggested order.

Note: Pages that belong content wise together can be identified by the code in the top right corner of each page Reads: (article title\sexymachinery\article number\position number within the article)

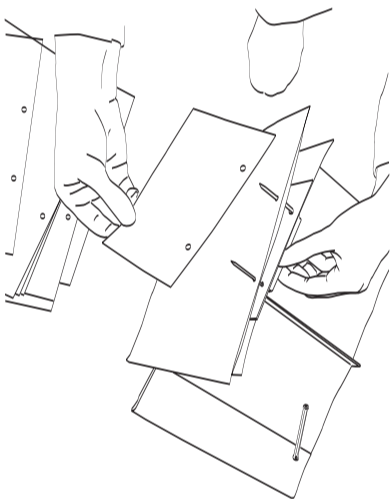

*fig. 3* take the clip and assemble the pages on the pins.

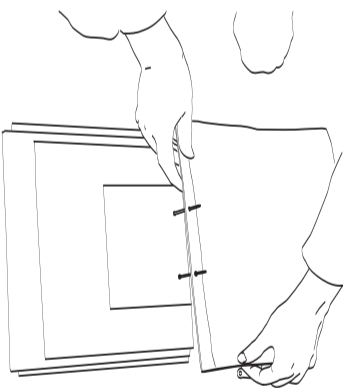

Note: Make sure that the side of the pages you want to be face up, face the spine of the clip.

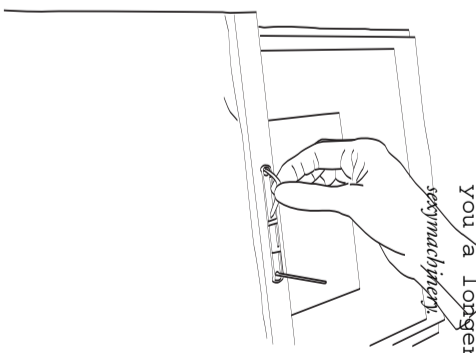

*fig. 4* after the first page is placed correctly on the pins, keep assembling the rest till the final page YOU WANT for YOUR sexymachinery.

*fig. 5* after assembling the pages on the pins take the cover and open it. Place the cover on the pins on top of the very last page. Please consider carefully which way around you would like to use the cover.

*fig. 6* place metal bar over the pins and fold them down. After doing so they should be secure with the two little metal brackets. By shifting the later back and forth accordingly to the stage of the assembly process. This security operation will guarantee you a longer lasting sexymachinery.

*fig. 7* read and enjoy sexymachinery's simple painless pleasure.
